Public Outreach and Process

Appendix A

Public Outreach and Process

The design of the 2010 Recharge Master Plan Update started in January 2008 with the development of a straw-man RMPU report outline that contained the content required by the December 21, 2007 Court Order and met the requirements of the Peace II Agreement and the Peace Agreement. The outline was also suggestive of the process that was to be used to complete the 2010 RMPU. That process specifically provided for input from the stakeholders. This outline was discussed at stakeholder meetings through the spring of 2008 and revised several times to respond to stakeholder input. The final report outline was submitted to the Court for their review and approval in late June 2008. In August 2008, the Court approved the 2010 RMPU report outline. In September 2008 Watermaster convened its second annual strategic planning meeting—the focus of which was the scoping of the 2010 RMPU. This strategic planning meeting served as the kickoff for the development of the 2010 RMPU.

The Chino Basin Watermaster planned and convened several workshops during the course of RMPU development. The purposes of these workshops were generally to present the results of the technical work to the stakeholders and to obtain input from the stakeholders. Each workshop had a specific technical theme. The workshops and their technical themes are listed below:

1. March 26, 2009 *Replenishment Projections and Supplemental Recharge Capacity and Design and Cost Development Criteria*
2. April 23, 2009 Stormwater Recharge Optimization: Potential Local Recharge Facilities (960 MB)
3. July 23, 2009 *Production and Replenishment Optimization and 2009 Peace II CEQA Analysis and Supplemental Water Recharge for Replenishment*
4. August 27, 2009 *Supplemental Water Alternatives*
5. October 22, 2009 *Stormwater Recharge Update*
6. January 28, 2010 *Storm Water Recharge Update*
7. March 25, 2010 *Replenishment Projections and Recharge Master Plan Update Recommendations and Storm Water Recharge Improvement Opportunities*
8. April 21, 2010 *Draft 2010 RMPU Report Workshop and Storm Water Recharge Improvement Opportunities*
9. May 19, 2010 *Draft 2010 RMPU Report Workshop #2*

A website was created to post the schedule of workshops and workshop presentations. This website was substantially upgraded in April of 2010 to include draft sections of the 2010 RMPU and again in June 2010 to include the final 2010 RMPU report. The final report, draft report, workshops, and other relevant documents can be accessed via the RMPU website at <http://rmp.wildermuthenvironmental.com/>.
